**KOSTIANTYN VOBLIY'S SCIENTIFIC SCHOOL:  
THE 140-TH ANNIVERSARY OF THE BIRTH OF SCIENTIST**

**Summary**

The article deals with life and formation stages of a famous scientist and economist Konstantin G. Voblyi (1876–1947) as a scientist, with his scientific legacy. His diverse activities as an organizer of the scientific life in Ukraine, one of the founders of the Ukrainian Academy of Sciences, an academician (since 1919), a founder of the Ukrainian economic and geographical school have been represented.

Having passed through difficult trials 1930–1933 K. Voblyi continued his fruitful scientific and social work at the Academy of Sciences of USSR and the State Planning Commission. The huge scientific heritage of K. Voblyi is still relevant nowadays, it has practical importance in the formation of economic relations, intensification of national economy of modern Ukraine.
